Centre**

The NHS Mail Project

The Digital Innovation Centre has been commissioned by NHS Kent and Medway to support Care Homes to set up a central NHS Mail inbox.

The NHS Mail Project gives us the opportunity to:

- Improve the quality of care for those we support
- Be transparent and accountable to those we support and their families and friends about how we use their information
- Support individuals to remain independent for longer
- Improve the quality and efficiency of information sharing between health and social care
- To ensure staff development and access to e-learning for health resources
- Family can be given informed updates about their loved one's health conditions more quickly

The NHS Mail Project

Our colleague Nicoleta Petre is the Digital Facilitator for the NHS Mail Project.

Please contact digitalenquiries@digitalinnovation.care if you would like virtual or in person support from our team.
